

Hospitality and tradition in the Dolomites

Our philosophy: Individual, inspiring, in harmony with nature – an experience shaped by a family atmosphere and top-quality cuisine.

Closeness to nature meets creativity. Tradition meets spontaneity. The hosts at Hotel Berghang love to surprise their guests. Because new things inspire. And inspiration... well, it liberates – from everyday life. Influences from around the world blend with family traditions – the hosts enrich the hotel's offering with experiences they've gathered across the globe. Originality creates character. And only a place with character can offer truly personal holidays!

Our philosophy: Sustainability with purpose and soul.

At Hotel Berghang, indulgence is not a contradiction to responsibility – it's part of it. We believe in a future where mindfulness, regionality and respect for nature and humanity are a given. That's why we've been making sustainable choices for years – honestly, thoughtfully, and lived every day.

Less is more:

whether paperless dining, conscious water usage or sauna upon request – we reduce where it makes sense. Cleaning is done with eco-friendly products instead of chemicals, and recycling is made easy.

Diversity that lasts:

for us, sustainability also means preserving habitats. With bee hotels, ladybird houses and bat shelters, we support biodiversity – in small ways, with a big impact.

Mindful indulgence:

our zero-waste kitchen shows how love for detail and appreciation for every ingredient can bring greatness to the plate. With regional ingredients and our own product line, we celebrate the treasures of our surroundings.

Made to involve:

anyone who wishes can actively take part in our philosophy – by choosing optional room cleaning, voluntarily offsetting CO₂ when booking, or by joining workshops and courses in our Astra Lab. Our tree project lets your holiday keep growing even after you leave.

Rooted in our team:

Sustainability starts in the mind – and is lived together. Our staff are trained regularly and support our values with heart and commitment.
